

British Service Ration Packs - Contents:

The British Army ration packs are amongst the best (if not the best) in the world, and with current decisions in the U.S to restrict if not totally ban the sale of M.R.E's to the general public, the market for these packs may take on a more global perspective.

Unfortunately they tend to be supplied in a rather anonymous cardboard box stamped only with a menu letter. The outdoor gourmet may wish to choose his eating if he can, and to this end I have supplied menu lists for both G.S (tins) and G.P (retort pouch) Ratpacks.

RATIONS, 24 HOUR, G.S
